THE DRIGGS PATENT or VIOLIN PIANO.

—GRANDS. BICHORDS, and HORIZONTALS, with
the OVERSTRUNG BASE.—These Planos have created so great
a sensation in the musical world during the past year, that jealous competitors have made it a business to anothermatize them,
knowing that the principles on which they are made are the only
correct ones, and that they are daily growing in layor with the
intelligent and unprejudiced public. The sonstant endeavors of
unscriptulons competitors to higher the good name of the
DRIGGS PIANO, by misrepresentations and the influence of
hired agents, and tempting commissions to drumners, while at
the same time they are copying all they dare from them in
order to improve their old instruments, made on false and unscientific principles, show how formidable a competitor it has
become. This constant abuse by the unscrupilous portion of the
trade, and their agents throughout the country, is the best evidence that these Pianos are fast superseding the old why so of instruments. The public are invited to call and see them at the
office of the DRIGGS PIANO COMPANY, No. 548 Broadway
between Spring and Prince-sta.
